

The Globe

KONTAKT

hello@mifactori.de

This is a product made by our studio (Lars) for [Treegrid](#). It is as simple as it can be. Take something heavy, wrap a wire or two around it and create something that can hold a regular vinyl ball – with earth printing.

The ball can still be used for playing. Wash it and put it back in the stand.

The product was developed as part of [Treegrid initial 44](#) and has been added to the Treegrid product catalogue as [“Globe”](#).

Here are some more pictures (click to enlarge). [Full album here](#).

Buy or Build

This solution is pretty easy to buy. Just get a regular (2mm or 1,5mm) wire from the hardware store, something heavy and a light (vinyl) ball with the print you want. Those balls are readily available from many manufacturers.
