OuOu – Circle Boards *

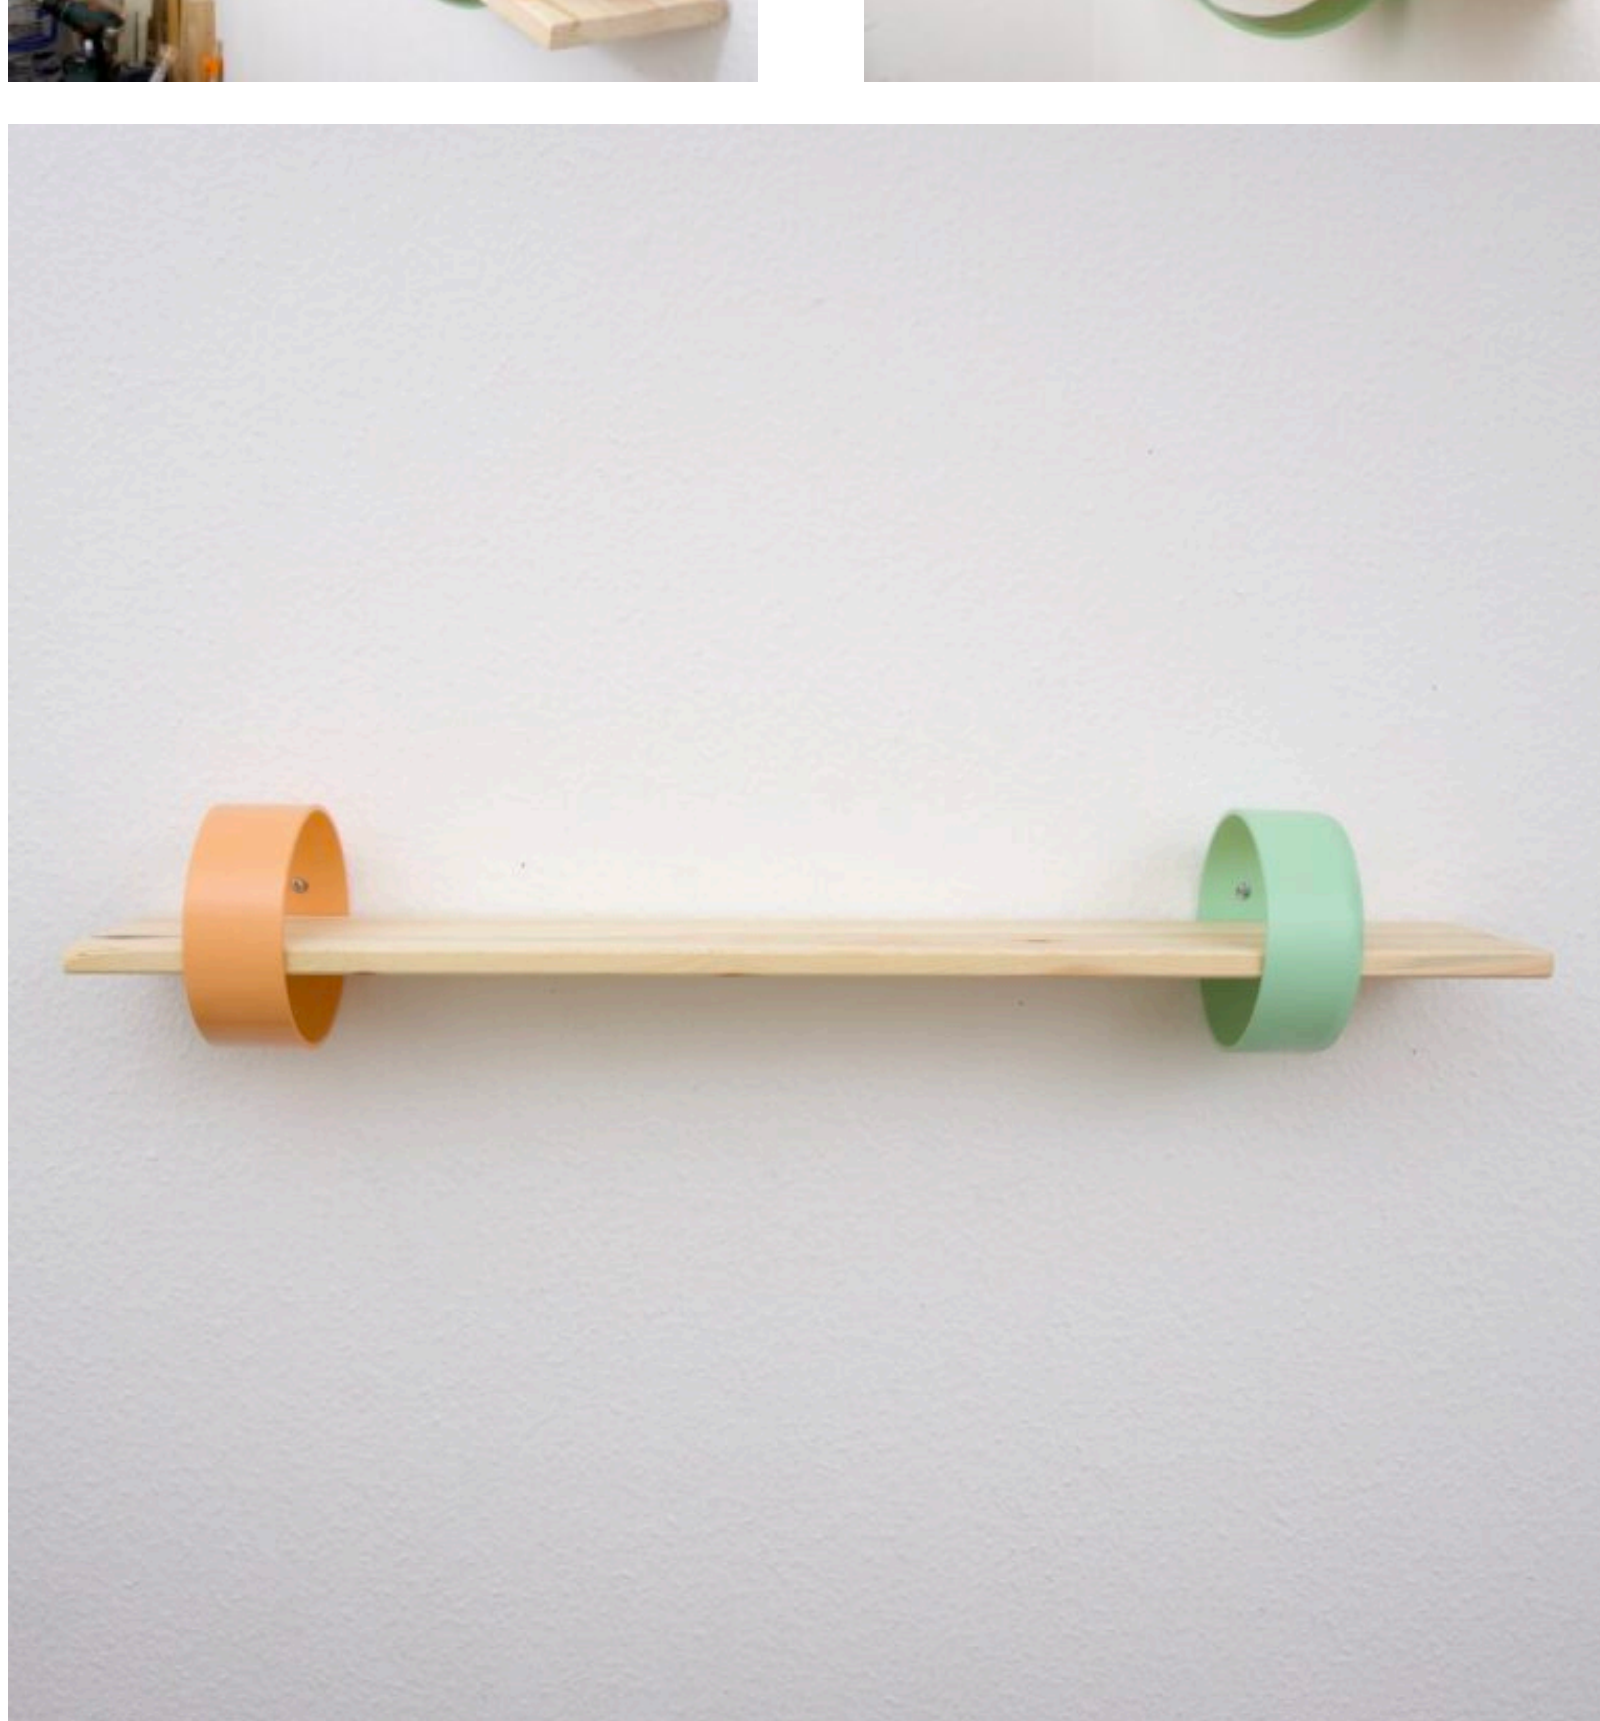

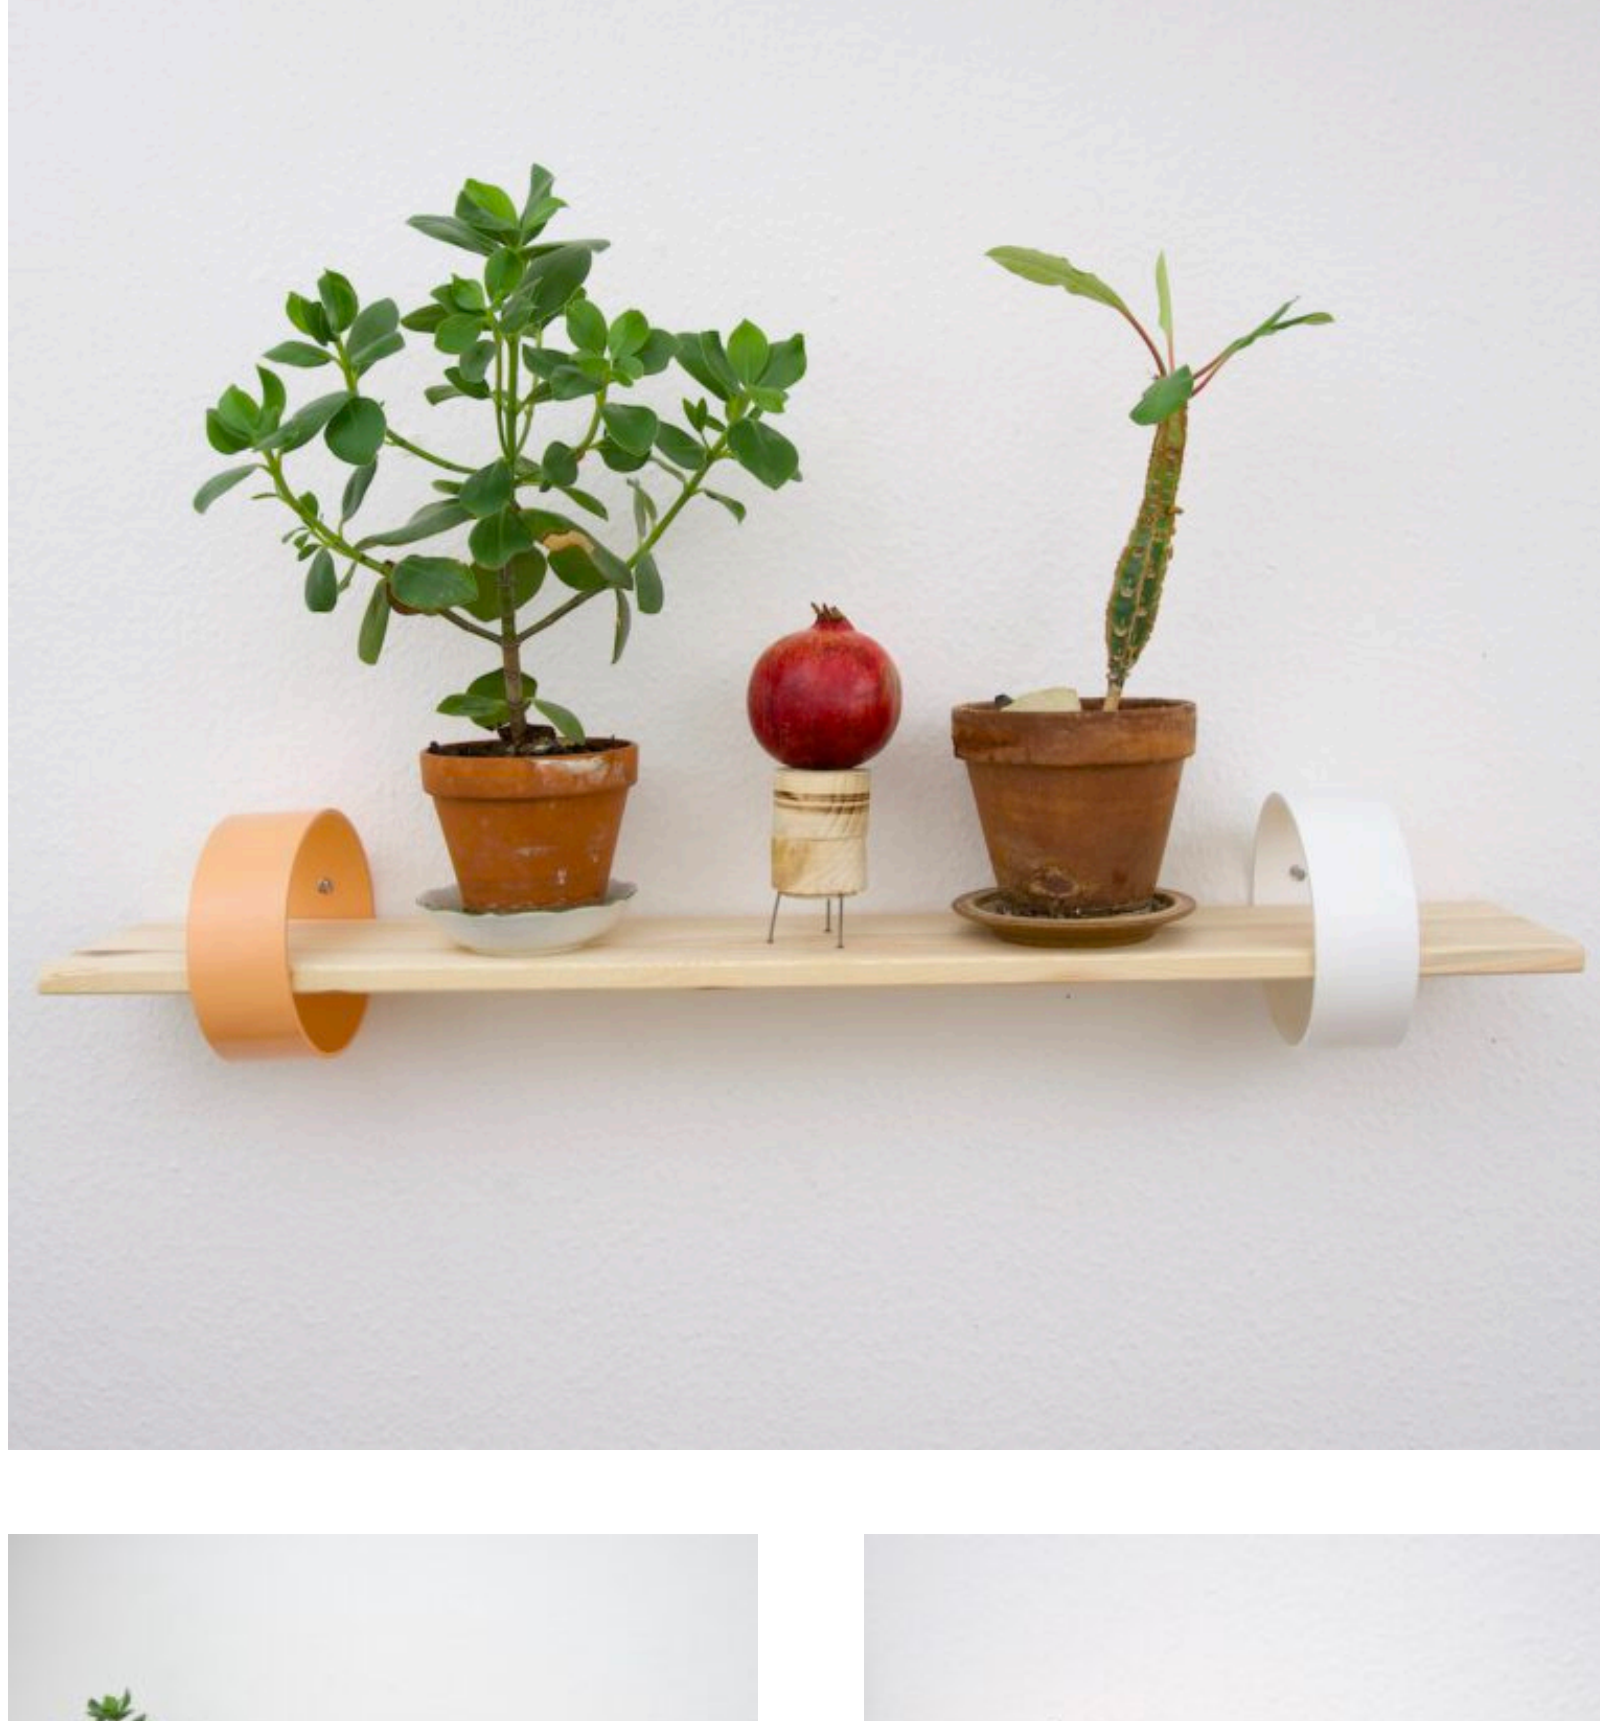

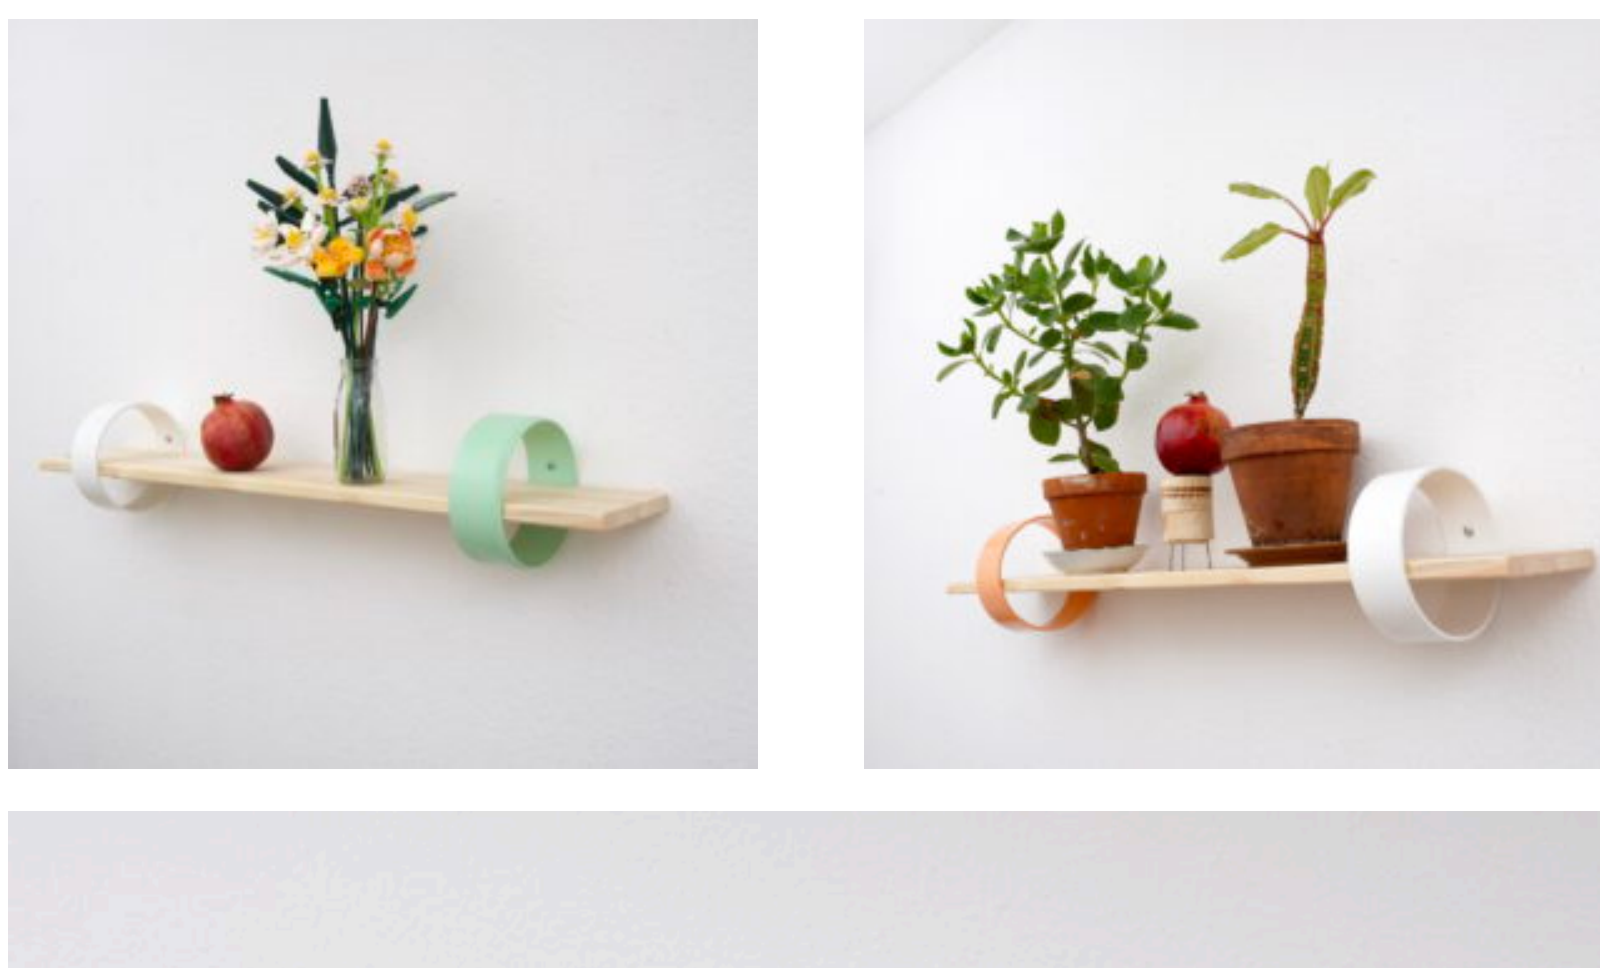

Another simple design we made for Trikkas [initial 44](#). A wallboard. Currently just a prototype and some color studies. It can't be bought somewhere (only as [local make](#)). But it is pretty easy to make as you can find out in the [Triikka info](#) below.

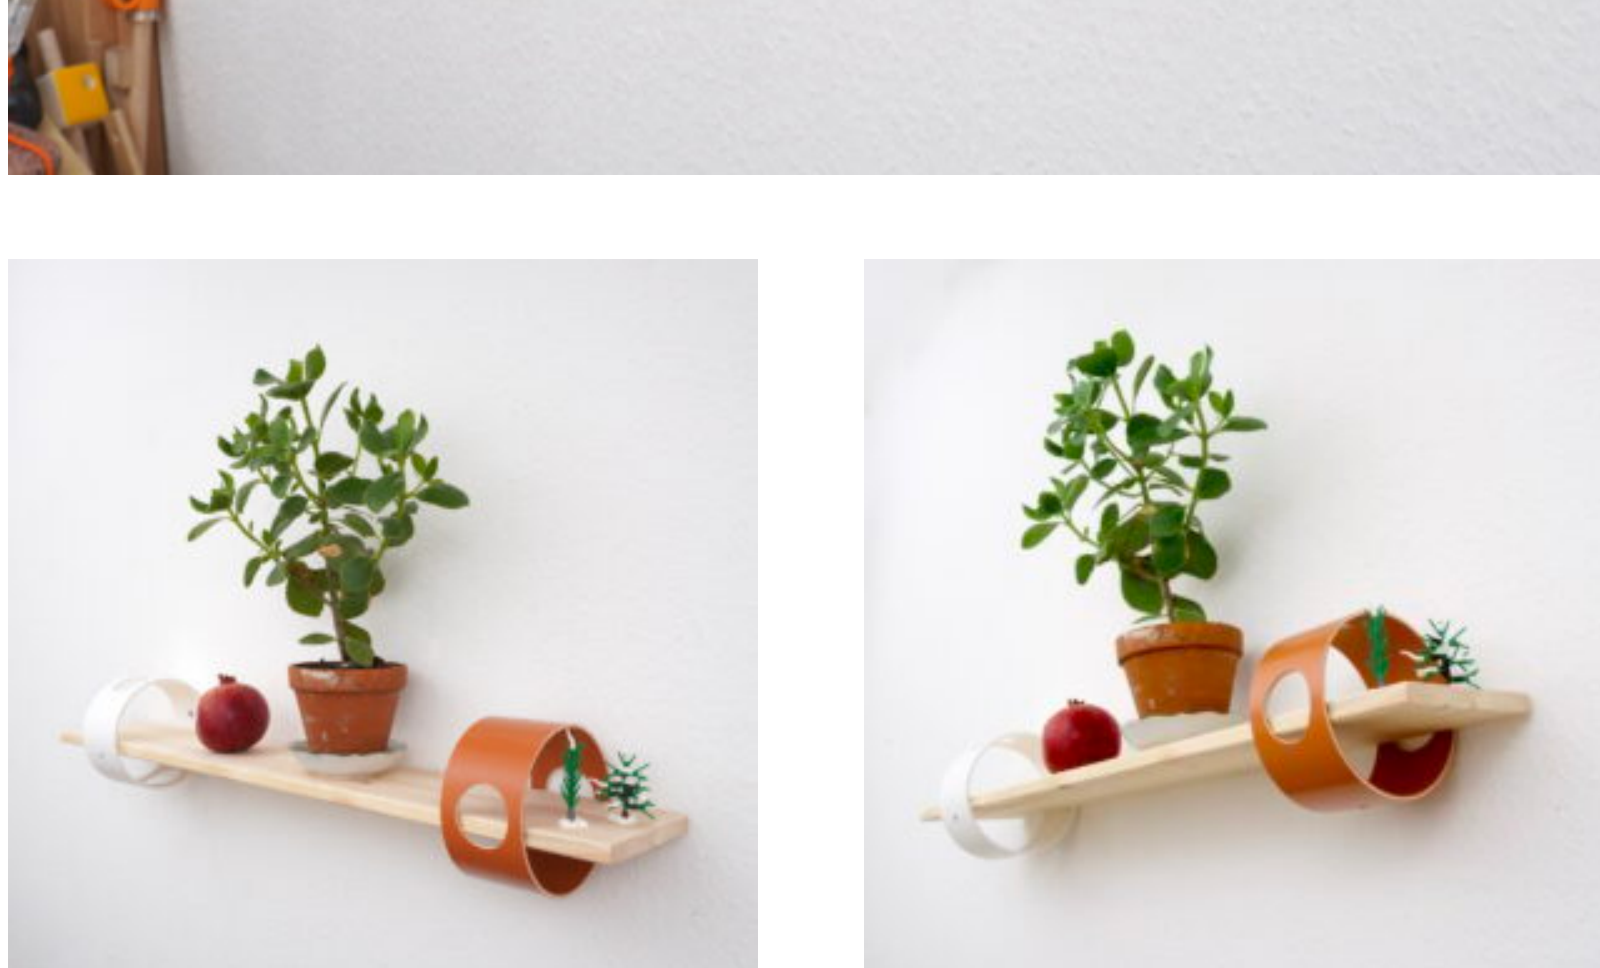

You just hang it to the wall with a [hook](#) or regular nuts and bolts. The hole in the [circle piece](#) is large enough for this. Then put a fitting board through. Done.

Here are some life style shots:

You can also use another Triikka part ([015.1](#)) for this (see below). And of course also other boards. Let's see what will be added to the catalog.
