

Rollco

A simple solution using Trikka parts. Manuela Sauer came up with it during her internship at our studio. It was added to the [Trikka catalog](#) as part of the [initial 44](#). It is currently only available as [local make](#) and is pretty easy to make (see Trikka info below).

Howto info: You can mount it to a wall or hang it from the ceiling using some string and a rope clamp. You can also leave out the half circle piece and just use the cord, rope clamp and wall hook.
