

I never played Tetris in Ulm

Another design for [Ikego.World](#). An assembly created from only existing [Ikego parts](#) technically inspired by the famous [Ulm Stool](#).

Info

- Depending on the stability of the parts, you can insert more or fewer connecting rods.
- The design can be easily customised with legs or an additional seat board with cushions.

Ikego info

Parts

- [125.1 \(Foam 400x400mm\) / optional](#)
- [124.1 \(Pocket big\) / optional](#)
- [120.1 \(Rail 300\) / optional](#)
