classic black

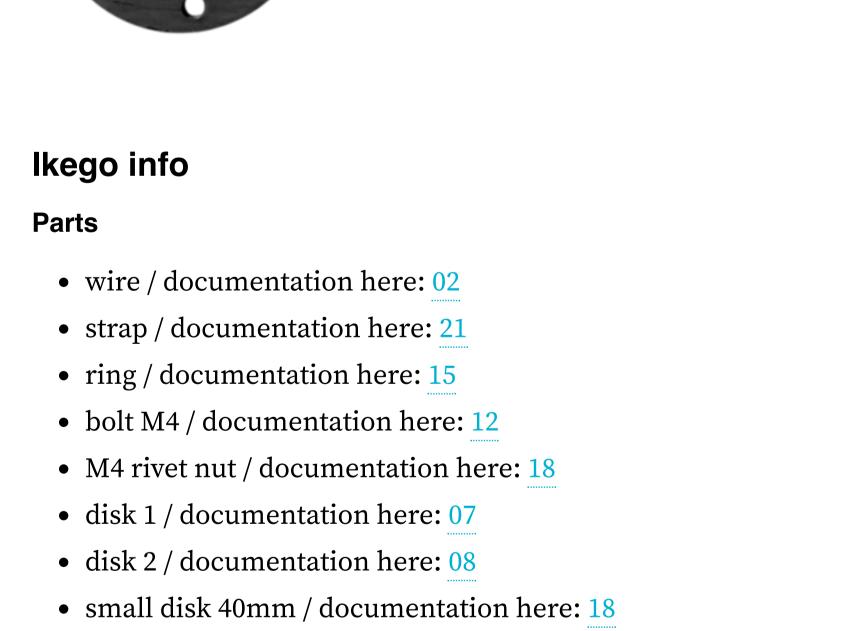

• According to the Ikego catalogue, the outer wire is 2 mm thick. In all of our prototypes, it was so strong that it could be bent, but also had enough strength of its own to exert just the right amount of pressure to press the headphone cups onto the ears. • Assembly outer side:

be ordered in this size. For a final product version of the

headphones, you could offer your own, slightly softer and

perhaps coloured versions within Ikego's tolerance.
